Kindl is your local Ontario source for charred wood. Kindl is a custom service – the team at South Parry lumber love working with their customers to create unique charred wood siding, fencing, decks or interior millwork in the shou-sugi-ban tradition. The mill has a large selection of milled profiles and handcrafted knives for custom profiles. Choose from Canadian Cedar and Douglas Fir species, or select from a broader range of wood species.

The mill is located in Parry Sound, Ontario and services all of Ontario. We work with architects and interior designers to ensure their vision is fully realized. Contact Deborah directly for a Presentation.
