Health and Learning vinyl tile by Roppe...exclusively through Centura Tile.

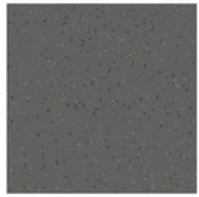

Roppe's new Health and Learning Vinyl Tile is their latest addition to a range of products that support the healthcare and education marketplace, and coordinates with their most popular rubber tile and tread profiles. Available in a palette of 15 colours, and a rectangular precision cut 12 x 24" format. The tile's 1/8" nominal thickness allows for seamless transition between vinyl and rubber flooring materials in the same colour.

It has a unique 28 mil wear layer topped with a C-Shield UV cured ceramic bead finish that enhances durability and resists scuffing and traffic patterns for ease of maintenance. Excellent indentation, chemical and slip resistance. Roppe's Health and Learning Vinyl Tile is 100% recyclable, and is formulated with 72% recycled content: 33% pre-consumer and 39% post-consumer waste.
