Sphera homogeneous vinyl by Forbo...exclusively through Centura Tile.

Sphera is Forbo's new premium homogeneous vinyl floor covering produced in a brand new European manufacturing plant with the latest technology.

It has a uniquely embossed surface that offers optimal performance, is low emitting and 100% phthalate free. Sphera's vinyl collection comprises three distinct ranges: Element | Energetic | Evolution.

Each range incorporates different aesthetic elements to ensure that Sphera floors can provide Designers with a broad range of design possibilities without compromising performance.

The Sphera collection replaces Sarlon Nordstar Element | Lumina | Galaxy. Contact Deborah for full product information, samples and technical features.
