Detail and Simplicity...every slab is a masterpiece/ Jewels

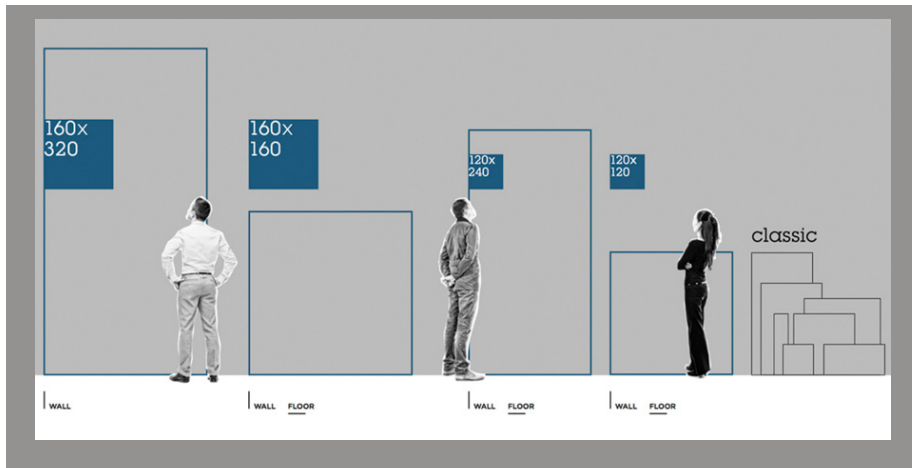

Exclusively through Centura Tile

The Jewels Collection by Mirage not only features the highest attention to aesthetic detail in producing a marble-effect porcelain stoneware collection in 17 exclusive marble options...it's also a masterful technical product featuring:

- multiple formats including very large sized slabs
- a variety of surfaces - natural, glossy, structured and silk
- solid and vitrified throughout the mass: an absorption rate of less than 0.04%
- made from prized clays with the addition of feldspar, quartz and kaolin, pressed and sintered at 1250 celsius
- The finished product is *compact, frost-proof, impact resistant, resistant to chemical and physical attacks and to bending thermal shocks*
